REVISED PRICE LIST, 1917

INTRODUCTORY.

In this revision is given a schedule of school supplies and road construction machinery in general use, arranged in classified form, with quotation of prices.

The description and prices of articles herein set forth have been carefully selected from a number of price lists of reputable firms, dealers and manufacturers in the State of Indiana of the varied lines utilized in the several classifications.

The home merchant as a taxpayer is a constituent part of the community, its interests and welfare. In consideration of the justice of the well-known principle of home recognition, the attention of trustees is called to the advisability of giving their patronage of township supplies to their local dealers, when their bids conform in quality and price to the lowest competitive bids, as may be determined by trustees and advisory boards, aided by the within price list.

With the omission from this revised edition of firm names from whom the within quotations of prices have been obtained, the guide will, I believe, be none the less convincing to trustees of the genuineness of the prices so quoted. This department, at all times and under all circumstances, wishes it to be understood that it does not, in the least degree, intend to show any favoritism or discrimination between reputable firms in the State desiring to bid on township supplies. It has been the aim of the State Board of Accounts to investigate very thoroughly the character of supplies, such as trustees are required to purchase, and to procure from a large number of Indiana dealers and manufacturers reliable, conservative prices, thereby conserving the best interests of the taxpayers.

The township advisory boards, by statute, are required to make an appropriation to cover the estimated cost of township supplies for the school year and the trustee is required to advertise for bids covering these estimates by posting five (5) notices in the township for a period of three weeks. If the contemplated expenditure in any one class of supplies amounts to so much as \$500.00, the trustee is further required to advertise in two newspapers in the county representing the leading political parties. In addition to the statutory provisions, this department has for the past four years required the township trustee to file in this office a complete list of all supplies for which proposals are requested, also when and where the bids will be received. Said lists are on file for the benefit of all supply dealers and merchants who desire to bid.

After the trustee receives bids pursuant to notices, as above stated, he should then compare the prices named in the various bids with the

prices named in the Price List Guide and determine which firm is the lowest bidder, considering the quality of the goods. The statute further requires that the advisory board shall attend the letting and the board may reject any or all bids. The trustee shall examine the bids, and shall satisfy himself as to which is the lowest and best bid, after advising with the advisory board thereon. The trustee must preserve all the bids, and endorse on each bid whether it is accepted or rejected and the reasons why.

It is evident that if trustees properly use this Guide List, it will restrain unscrupulous supply agents who, in the past, have, in dishonest ways, exerted their influence on the office holder to violate his oath to a greater extent than they have shown a devotion to legitimate business methods.

Most of the recoveries recently made have been on account of the wrong doing by corrupt supply agencies and dishonest contractors. Graft to the extent of tens of thousands of dollars have been turned back into the treasuries of municipalities by these parasites of society.

If the trustees pay more than the prices named in the Price List Guide at the letting, June 5, 1917, they will be charged with the difference. The prices named in this Guide are the maximum prices. It is expected that this guide will post the trustees as to the general market prices as nearly as can be determined under the present abnormal conditions and generally rising prices. It will aid in bringing about more competitive bidding and thereby reduce the cost of school supplies and road supplies to less, in many instances, than the prices named in such guide. Trustees must secure the **lowest prices** that may be obtained by legitimate competitive bidding and sound business judgment. This is a good time to confer frequently with your **local merchant**, who is your neighbor and a taxpayer and whose motive would naturally be to tell you the truth as to prices of supplies.

Our field examiners have been instructed not to show any favoritism between merchants or supply dealers, but they have also been instructed to urge all trustees to make a sufficient investigation to determine that the firm or individual with whom they may deal is reliable.

I want every township trustee in the State to feel at perfect liberty to request information from this department by mail or by calling in person, as may best suit his convenience.

Respectfully,

GILBERT H. HENDREN,

State Examiner.

Adjustable Folding Shades.

Only the best grade of cotton duck cloth is used in its manufacture. By using several bars the shade can be folded to one-seventh or less its length. Right conditions favor the use of one intermediate bar. This shade lowers from the top and folds from the bottom; operates without a roller; has two positive acting automatic pulleys. The shade is guaranteed against mechanical defects.

For foul air ventilator through roof, add		20 00
With inner smoke stack		25 00

Furnaces fully guaranteed, delivered and installed at above prices.

\$10.00 discount on each heater where two or more are purchased by same township, shipped and installed at same time.

As to general school house heating and ventilating and rules concerning public building contracts, I mailed a report a few days ago to all township trustees and school boards giving complete particulars. This report prepared, by Prof. Veal of Purdue University, has the approval of more than a half dozen of the engineering departments of the largest universities in the country. In fact, all colleges to which we sent a typewritten copy before the same was published approved such report.

In determining the kind of system for which you will have plans and specifications prepared, you should consider at least three standard systems, taking into account the quality, original cost, durability, cost of operation, and repair of each system and determine which is best suited for the particular kind of a building which you are going to erect.

Professor Veal's report shows the relative efficient and economical value of the various systems on the basis of the provisions of the sanitary school house law of Indiana, namely, heating, ventilating, humidity,

CLASS No. 25—Continued.

initial cost, durability, up-keep, safety, operating cost, and cleanliness. Professor Veal spent many months in making tests of the various systems of heating and ventilation. From this report you will learn that some of the systems cost less to operate, give much better satisfaction and by comparison such meritorious systems will last probably twice as long as some other systems. It becomes your duty upon proper investigation of all bids, with the advice of your heating, and ventilating engineer and architect to determine the lowest and best bid according to the merits of the system you have selected on the general basis of Professor Veal's report.

The proposition of specialties and any extras to be considered, should be included in the original plans and specifications. As a rule "extras" and "specialties" (after the contract is let) shall be kept at low tide as they are without competition and nearly always expensive. By adopting as a basis the information contained in Professor Veal's report and by following the rules and regulations of public building contracts by this department will result in a saving to the taxpayers of Indiana of more than \$100,000 annually. Therefore, I insist that the general basis given in Professor Veal's report, the provisions of the sanitary laws of the State, the rules and regulations of the State Board of Health, and the rules of the State Board of Accounts concerning public building contracts must be followed, "with the idea of safe-guarding the expenditure of public money and the loss of property and more especially the health and lives of school children."

CLASS No. 26.

WHEELBARROWS AND TRUCKS.

CLASS No. 36—Continued.

Description.

Base Metal Culvert Iron is refined in open hearth furnaces to reduce the five metaloids (carbon, sulphur, phosphorus and manganese.)

In class "A" (pure iron) the metaloids shall not exceed $\frac{1}{4}$ of 1 per cent (.0025.)

In class "B" (copper bearing iron) the metaloids shall not exceed $\frac{3}{4}$ of 1 per cent (.007) and shall contain 20 hundredths per cent copper.

In class "C" (normal open hearth mild steel) the metaloids shall approximate 1 per cent.

Galvanizing: $1\frac{1}{2}$ oz. per sq. ft. (2 sides.)

Corrugations—9 to 2 ft., $\frac{1}{4}$ " deep.

Galvanized Metal for Culverts.

Corrugated and formed into arches for half circle culverts with masonry or iron bases.

Half Cylinder Arches.

Size, span.....18 in. 24 in. 30 in. 36 in. 48 in.
Price per foot class "A" base metal....\$ 70 \$ 90 \$1 10 \$1 35 \$1 80

Discount for class "B" metal 10 per cent. Class "C", 20 per cent.
Iron basis at half arch prices. Freight allowed 300 miles.

F. O. B. destination.

NOTE: ALSO, ALL OTHER MAKES OF CULVERTS, SIMILAR IN DESIGN AND EQUAL IN QUALITY AND PRICE, SHOULD BE CONSIDERED BY ALL TRUSTEES IN ADDITION TO THE WITHIN QUOTATIONS.

CLASS No. 37.

PLAYGROUND MATERIAL.

Large double coaster slide 14', with two chutes 30' long, single or double stairway, each.....	\$150 00 to \$175 00
Large single coaster or wave slide, large platform, metal stairway, each.....	110 00
School slide, wave effect, 8' high, 16' long, large platform, wooden or metal stairway, each.....	40 00
Playground slide, 8' high, 10' long, each.....	30 00
Kindergarten slide, 5' high, 10' long, each.....	10 00
Kindergarten slide, 6' high, 12' long, each.....	13 00
Kindergarten slide, 7' high, 14' long, each.....	17 00
Giant stride or May Pole, ball and roller-bearing, head 4½" steel pipe 18' long, metal ladders with wooden rungs, each.....	30 00
Same thing without pipe, each.....	20 00
Ocean wave, 36' circle, 4½" pipe support, 12' high, all steel and hard wood, each.....	45 00
Outdoor gymnasium, containing horizontal bar, climbing ladders and climbing poles, aluminum flying rings, swings and trapeze, complete without pipe, each.....	70 00
Pipe extra, each.....	70 00
Aluminum flying rings with roller bearing hangers, per pair, complete, each.....	8 00
Swing with long links, chains, roller-bearing hangers, complete, each.....	8 00
Horizontal bar, cold roll steel with fittings, each.....	6 00
Trapeze with roller-bearing hangers, machine chains cold roll steel, each.....	5 00
Climbing poles, complete with hangers, each.....	5 00
Traveling ring outfit, with aluminum traveling rings, roller-bearing hangers, all fittings for six swings, complete without pipe, each.....	32 00
Horizontal ladders, 16' long, all steel, hot galvanized, each.....	42 00

CLASS No. 37—Continued.

6-swing outfit, 12' high, all steel, roller-bearing all fittings complete without pipe, each.....	\$45 00
Kindergarten swing outfit with roller-bearing hangers, per swing.....	4 50
Baby seups or basket swings with roller bearing hangers, each.....	4 00
See-saw outfit, single, each.....	10 00
Four board without pipe, each.....	40 00
Lawn swings, with frame, each.....	20 00
Horizontal bar outfit, all steel stationary with pipe.....	16 00
Parallel bars, all steel, each.....	18 00
Vaulting horse, complete, aluminum handles, each.....	30 00
Basketball stops, galvanized sheet steel, perforated, per pair.....	30 00
Jumping standards, stationary.....	7 00
Portable with 25 lb. base.....	20 50
Three-swing outfit, all steel, complete with galvanized pipe.....	30 00
Six swings, complete with galvanized pipe.....	60 00

F. O. B. Factory

Note: Also, all other makes of playground material similar in design and equal in quality and price should be considered by all trustees in addition to the within quotations.

Baseballs—

"City League"—Horse hide cover, regulation size, each.....	\$ 50
"College League"—Horse hide cover, regulation size.....	75

Catcher's Mitts—

Men's size, napa tanned leather, each.....	75
Men's size, California tanned leather, each.....	1 00

Equipment for Courses in Woodworking.

Tools—Kind and Description.

The following tools are the best quality and are all standard makes. They are well known by all manual training teachers and hardware dealers. Any hardware dealer can furnish these tools. The numbers given are the manufacturer's catalogue numbers.

Plane No. 3, Stanley.....	\$ 2 40
Plane, No. 5, Stanley.....	2 90
Try square, No. 12, 8 inch, Stanley.....	50
Rule, No. 60, 1 ft. Lufkin.....	40
Back Saw, No. 2, 10 inch, 12 point Atkins.....	1 40
Chisel, $\frac{1}{2}$ inch, Firmer chisels.....	60
Chisel, $\frac{1}{2}$ inch.....	70
Hammer, No. 2, 13 ounce, Maydole.....	90
Hammer, No. 3, 7 ounce, Maydole.....	80
Spoke shave, No. 52, Stanley.....	35
Marking gauge, No. 65, Stanley.....	50
Sloyd knife.....	35
Cross cut saw, No. 53, 20 inch, 10 point Atkins.....	1 75
Rip saw, No. 53, 22 inch, 7 point, Atkins.....	1 80
Screw driver, No. 20, 4 inch, Hurwood Stanley.....	35
Screw driver, No. 70, 2 $\frac{1}{2}$ inch, Hurwood Stanley.....	18
Wing dividers, 7 inch, P. S. & W.....	40
Wood files, 10 inch, half round, bastard cut, Nicholson.....	40
Counter brush, 8 inch, full black bristle.....	50
Coping saw, No. 50, Atkins.....	85
Coping saw, No. 100 Atkins.....	20
Hand screw, Jorgensen, 10 inch, No. 2.....	75
Cabinet clamps, steel, 3 ft. Handy Mfg. Co., pair.....	1 60
Bevel squares, No. 18, 8 inch Stanley.....	65
Bit braces, No. 63, 8 inch, ratchet, Barber's improved.....	1 90
Long dowel bit, $\frac{1}{2}$ inch Russell Jennings.....	35
Long dowel bit, $\frac{3}{8}$ inch Russell Jennings.....	35

CLASS No. 41—Continued.

Long dowel bit, $\frac{1}{2}$ inch Russell Jennings.....	\$0 40
Long dowel bit, $\frac{1}{2}$ inch Russell Jennings.....	65
Long dowel bit, 1 inch Russell Jennings.....	75
Auger bits at the same price of dowel bits.	
Wood drills, $\frac{1}{2}$ inch Syracuse.....	15
Wood drills, 5-32 inch Syracuse.....	16
Wood drills, 3-16 inch Syracuse.....	20
Nail set, knurled, Syracuse.....	15
Countersink, No. 3 Rose, Sargent.....	30
Screw driver bit, 5-16 inch, Stanley.....	12
Framing square, No. 14, Sargent.....	85
Turning saw, 14 inch, Millers Falls.....	1 00
Bradawl, No. 4, hardwood handle, Stanley.....	10
Oiler, spring steel coppered.....	15
Oil stone, India combination, 1x2x6 inches.....	60
File brush and card, Nicholson.....	25
Steel figures, $\frac{3}{8}$ inch machine cut.....	1 25
Center punch, knurled, Syracuse.....	20
Bench press drill, No. 23, Millers Falls.....	3 50
Gimlet bits, German pattern, any size.....	10
Breast drill, No. 2, Fray.....	3 00
Twist drill, 5-32 inch, Syracuse.....	12
Twist drill, $\frac{3}{8}$ inch, Syracuse.....	28
Pliers, No. 40 P. S. & W., 7 inch.....	65
Monkey wrench, 8 inch Coes.....	90
Cabinet scraper, 3x5 inches, Atkins or Stanley.....	25
Draw knife, 8 inch, No. 71 $\frac{1}{2}$ Buck Brothers.....	80
Wood Mallet, No. 1, 3x5 inches, Stanley.....	25
Expansive bit, Clark's large size.....	1 10
Emery grinder with foot power attachment.....	7 00
Chip carving knife, Henckle's.....	25
Shellac brushes, rubber set, 1 in., 25 cents; 1 $\frac{1}{2}$ inch, 30 cents; 2 inch.....	35
Stain brushes, tin ferrules, 1 inch, 15 cents; 1 $\frac{1}{2}$ inch, 20 cents, 2 inch.....	25
Snips, 9 inch Niagara.....	1 35

CLASS No. 42.

TOOLS FOR ELEMENTARY BLACKSMITH WORK.

1 18 inch hand-blown forge.....	\$ 7 04
1 Kit of blacksmiths tools—	
1 14 inch tongs.....	60
1 cold chisel, 1 $\frac{1}{2}$ inch.....	50
1 hot chisel, 1 $\frac{1}{2}$ inch.....	50
1 hardie, 1 inch.....	53
1 blacksmith's hammer (2 lb.).....	96
1 18 inch gad tongs.....	50

CLASS No. 42—Continued.

1 blacksmith's anvil (Hay, Buddon or Trenton).....	\$11 00
1 hand power drill press.....	9 46
1 3 $\frac{1}{2}$ inch mechanic's vise.....	5 20
1 No. 10 all steel turner's snips.....	85
Total.....	\$37 14

Blacksmith Work.

Helps.

American Blacksmith—A monthly journal, American Blacksmith Co., New Sidway Bldg., Buffalo, N. Y., per year.....	\$1 00
Manual Training & Vocational Education—Manual Arts Press, Peoria, Ill. Monthly, per year.....	2 00

CLASS No. 43.

Tools Needed for Simple Cement Work.

1 9 inch mixing hoe.....	\$ 71
1 shovel, size No. 2, square point, D handle.....	93
1 10 inch Cincinnati pattern plastering trowel.....	55
1 10 inch London pattern trowel.....	71
1 5 inch pointing trowel.....	33
Total.....	\$ 3 23

The boys and teachers should make all the mixing troughs and bins needed for cement work.

Cement or Concrete Work.

Helpful suggestions for work.

Lessons in concrete—Information Bureau, Universal Portland Cement Co., Chicago, Ill.....	Free.
Lessons in Concrete—Concrete Construction for the Home and Farm—Atlas Portland Cement Co., 30 Broad St., New York, N. Y.....	Free.

CLASS No. 44.

HORTICULTURE.

Pruning tools—

1 saw, E. C. Atkins, No. 4, 6 teeth to inch.....	\$ 90
1 saw, Henry Disston & Sons, Nos. D-24 & 26, 6 teeth to inch.....	\$1.65 and 2 10
1 hand shears.....	.35c to 55
1 topping shears.....	1 54

CLASS No. 45.
AGRICULTURE.

Apparatus for High School—

Crops.

1. Tape line (press button) each.....	\$ 15
2. Foot rule, each.....	15
3. Tripod lens, each.....	75
4. Metric scale, each.....	50
5. Testing bucket scientific apparatus, each.....	17 50
6. Dinner plates for seed testing, 2 sizes, 4 for each student each.....	25
7. Muslin, 1 yard per student, each.....	10
8. Grains, etc., according to students.....	

Apparatus for Seventh and Eighth Grades—

1. Tape line (press button) each.....	15
2. Rule (1 ft.) each.....	15
3. Weed seed collection (Purdue) each.....	40
4. Metric scale, each.....	50
5. Tripod, each.....	75
6. Testing box, each.....	40
7. Bottles, wide-mouth, 16 oz. (6) each.....	40
8. Seed samples.....	

CLASS No. 46.

Apparatus and Material for High Schools—

SOILS.

Common Use.

1. Soil sieve, 12-mesh, 18 inch, diameter, each.....	\$ 1 00
2. Drying oven, galvanized, each.....	6 50
3. Miscellaneous chemicals, each.....	3 00
For each student.	
4. Tripod lens, each.....	75
5. Glass tumblers, (6) each.....	35
6. Glass funnels, 4 inch mouth (4) each.....	45
7. Large spoon, each.....	20
8. Tin pans, 2 qt. (2) each.....	50
9. Galvanized troughs, 8x1 inches, (8) each.....	1 25
10. Tin cans, 1 qt. (18) each.....	40
11. 2 inch diameter, glass tubes, 15 inches long (6) each.....	1 50
12. Wide mouthed bottles, 1 qt. for percolation (6) each.....	20
13. Rack for holding apparatus, material, each.....	1 00
14. Muslin, 1 yard, each.....	10

CLASS No. 47.

Apparatus and Equipment for Seventh and Eighth Grades— in
Soils. Needed for each Student

1. Tripod lens, each.....	\$ 75
2. Spring balance, each.....	75
3. Tin cans (one qt. Tomato), 1 dozen, each.....	20
4. Litmus (blue), 1 box, each.....	25
5. Glass tumblers (4), each.....	20
6. Tin pans (1 pt.) (4), each.....	20
7. Tin pans (2 qt.) (4), each.....	60
8. Lamp chimneys (8), each.....	1 25
or 12 inch glass tube, 2 inches diameter (8), each.....	2 00
9. Erlenmeyer flasks, 500 c. e. (2), each.....	45
10. Flower pots or straight sided, one gal. jars (2) each.....	40

Chemistry.

Alcohol lamp or Bunsen burner.....	\$ 25
1 lb. assorted glass tubing.....	50
2 dozen assorted test tubes.....	50
2 dozen assorted corks.....	30
Nest of 6 Beakers, 1 oz. to 14.....	80
Blow pipe.....	12
Set of 3 cork borers.....	50
Cork screw.....	05
2 nest of Hessian crucibles.....	20
1 pair crucible tongs.....	25
16 ounce Florence flasks.....	50
2-4 ounce Florence flasks.....	32
Chemical thermometer, 110° cent.....	1 00
Weights, 1 eg to 20 gr.....	70
Balance hand.....	1 75
Deflagrating spoons.....	08
3 inch evaporating dish.....	30
4 inch evaporating dish.....	40
Evolution flask.....	55
Carbonic acid gas apparatus.....	75
Triangular file.....	05
Round file.....	05
1 pack 4" filter paper.....	15
5 inch funnel.....	30
3 inch funnel.....	18
Glass syphon.....	20
Glass graduates, 100 cc.....	50
English graduates, 8 ounce.....	60
Gas bag with stop cock.....	1 85
Hydrometer, light liquids.....	40

CLASS No. 47—Continued

Hydrometer, heavy liquids.....	\$0 40
Hydrometer, jar, 12x2.....	60
Lead dish, 3 inch.....	15
Pipette, 5 cc.....	40
Pneumatic trough.....	50
8 ounce retort tubulated.....	1 10
8 ounce retort receiver.....	80
Retort stand.....	65
10 rubber tubing, $\frac{1}{4}$ inch.....	1 00
10 rubber tubing, pure gum, $\frac{1}{4}$ inch.....	1 00
Reduction tube, 2 bulb.....	22
Steel spatulas, 6 inch.....	40
Glass stirring rod.....	05
Sand bath, 4 inch.....	12
Test glass, 4 ounce.....	15
Test tube rack.....	30
Test tube holder.....	08
Test tube cleaner.....	07
Safety tube.....	18
Wire gauze.....	06
Woulff bottle, three necks, 8 ounce.....	50
Wedge wood mortar and pestle.....	50

Total..... \$23 33

1917—Physics.

List "A" represents the minimum of equipment.

List "B" and "C" should be added as soon as possible.

List A. (For an appropriation of \$100.)

839	Two meter sticks.....	\$ 42
1001	Adhesion disk.....	20
1008	One dozen Prince Rupert drops.....	20
	Brass ball, $1\frac{1}{2}$ inch diameter.....	1 00
	Wood ball, $1\frac{1}{2}$ inch diameter.....	12
	Lead ball, $1\frac{1}{2}$ inch diameter.....	20
1314	3 English and metric balances.....	60
1330	1 Harvard trip balance.....	6 00
1331	Support and pans for balance.....	1 50
1416	1 set of brass weights, 500 gr.....	3 00
1434	1 set of universal weights.....	2 50
1610	1 air pump and compressor.....	5 00
1611	1 receiver plate.....	5 00
1649	1 bell jar, open.....	1 20
1674	1 Boyle's law tube.....	60

CLASS No. 47—Continued.

1670	1 barometer tube, straight, sealed.....	\$ 30
	5 pounds of mercury—(At market price.).....	
5415	5 pounds assorted glass tubing.....	2 50
5700	12 feet 3-16 inch rubber tubing.....	72
5176	Cork borers.....	85
5162	1 gross assorted corks.....	65
1550	Hydrometer for heavy liquids.....	40
1545	Hydrometer for light liquids.....	40
5210	2 Hydrometer jars, 12 inch by 2 inch.....	1 20
1809	Double scale thermometer, etched, 300 degrees.....	2 00
1809	Double scale thermometer, etched, 100 degrees.....	1 55
2329	Lodestone.....	35
2327	Pair of 8 inch bar magnets.....	60
2320	Horseshoe magnet, 6 inch.....	35
2343	1 pound iron filings.....	15
2316	Helix and ring.....	1 65
2300	Magnetic needle, agate cap.....	1 00
2336	Friction rod, wax.....	12
2334	Friction rod, glass.....	12
2339	Two friction rods, hard rubber.....	40
2366	Electroscope.....	50
2342	Pith balls.....	15
2900A	Wimhurst machine, 8 inch.....	9 25
2376	Electrophorus disk and plate.....	2 00
2363	Proof plane.....	40
3009	2 gravity cells.....	1 30
3010	Dry cell.....	50
3078	Primary and secondary coil.....	3 75
3091	Dissectible motor.....	1 00
3050	Decomposition of water apparatus.....	1 75
4061	Telephone receiver.....	1 00
4066	Telephone transmitter.....	95
4010	Lecture table, demonstration galvanometer.....	9 00
4050	Resistance box.....	5 00
4075	Electric bell.....	40
1901	Brass wire spiral spring.....	30
1940	Adjustable tuning fork.....	1 50
2100	Coneave and convex mirrors.....	2 30
2065	2 prisms, equilateral, 4 inch.....	60
	1 mounted lens, 5 inch.....	2 20
2055	1 set of demonstration lenses, $1\frac{1}{2}$ inch.....	1 50
2068	Iceland spar.....	50
5800	2 retort stands, 3 rings each.....	1 30
5132	1 clamp.....	30
5105	2 Bunsen burners.....	25
5451	1 soldering outfit.....	70

CLASS No. 47—Continued.

1 double scale graduate, 500 cc.....	\$1 30
1 pound double cotton covered office wire, No. 18.....	65
Total.....	\$93 20

List B. (For an appropriation of \$150.)

List A Items.....	\$93 20
1110 Ball bearing rotator.....	5 75
1102 Centrifugal ring to fit rotator.....	1 00
1109 Balls unequal weight, on frame.....	1 75
1110 Glass globe for rotator.....	1 50
1915 Crovas disk.....	50
1908 Siren disk.....	1 60
2045 Color disk.....	1 95
1955 Manometric flame apparatus.....	6 50
5074 Specific gravity bottle, adjusted, 50 cc.....	1 50
2319 Dipping needle.....	2 20
2372 Dissectible Leyden jar.....	2 00
Fuller cell complete.....	2 30
1145 Mechanical power apparatus.....	4 00
1620 Seven in one apparatus.....	5 20
1668 Stop cock, both ends for tubing.....	45
1762 Air thermometer tube.....	18
1941 Sympathetic forks and hammer.....	9 50
Total.....	\$141 08

List C. (For an appropriation of \$250.)

Items of lists A and B.....	\$141 08
806 Micrometer caliper, 1-5 cm.....	3 50
1038 Collision balls, on frame.....	2 50
1090 Second law of motion apparatus.....	1 75
1161 Inclined plane and car.....	3 78
1755 Harvard apparatus A.....	2 40
1770 Pair of parabolic reflectors.....	5 00
1782 Palm glass.....	45
1928 Chladni plates, large size.....	3 00
1930 Sonometer, with weights.....	7 00
C tuning fork, mounted without hammer.....	5 50
A tuning fork, mounted without hammer.....	3 35
2050 Tourmaline tongs.....	2 00
2150 Porte lumiere.....	8 00
2160T Optical disk, including refraction tank.....	16 75

CLASS No. 47—Continued.

2920 Geissler tube.....	\$0 60
4035 Tangent galvanometer, complete with compass.....	2 40
4060 Wheatstone bridge.....	2 75
4096 Wireless telegraph outfit, complete, including large size induction coil, without cells.....	16 00
Total.....	\$227 81

Balance of \$250.00 to provide blinds for darkening the room, apparatus case, etc.

Botany.

Bausch and Lomb Microscope, B H 1.....	\$28 00
Bausch and Lomb Microscope B H 2.....	32 00
Bausch and Lomb Microscope B H 3.....	29 50
Bausch and Lomb Microscope B H 4.....	32 50
Carrying case, \$2.00 extra.....	
4850 Cover Glasses, $\frac{1}{2}$ ounce.....	70
4849 Glass slides, $\frac{1}{2}$ gross.....	60
4945 Section razor.....	1 00
1 Dozen Camels hair brushes, small.....	25
4973 Syracuse Watch Glasses, per dozen.....	60
4860 Dissecting needles.....	15
4856 Forceps.....	15
4830 Dissecting Microscopes.....	1 50

CLASS No. 48.

Indiana Reformatory Trades School Products.

Net prices, including freight prepaid.

Library table, French leg, quart oak, 30x48, Fig. 1, each.....	\$ 8 75
Sanitary Flat top desk, quart oak, 3x5, Fig. 2, each.....	23 25
Sanitary roll top desk, quart oak, 54 inch top, Fig. 3, each.....	28 50
Office pivot chair, uphol. seat, plain oak, Fig. 4, each.....	7 50
Heavy mission dining chairs, wood seat, plain oak, Fig. 5, each.....	1 75
Heavy mission dining chairs, uphol. seat, plain oak, Fig. 6, each.....	2 00
Heavy tablet arm lunch chairs, wood seat, plain oak, Fig. 7, each.....	3 00
Heavy arm rocker, double cane seat and back, oak or maple, Fig. 8, each.....	5 00
Heavy arm chair, double cane seat and back, oak or maple, Fig. 9, each.....	4 50
Heavy sewing rocker, double cane seat and back, oak or maple, Fig. 10, each.....	4 50
Heavy mission rocker, uphol. seat and back, quartered oak, Fig. 11, each.....	8 75

CLASS No. 48—Continued.

Mission chair, uphol. seat and back, quart oak, Fig. 12, each.....	\$ 8 25
Mission divan, uphol. seat and back, quart oak, Fig. 13, each.....	12 00
Mission library table, heavy, quart oak, Fig. 14.....	12 50
Wood porch settee, 3 ft slat, plain oak, Fig. 15, each.....	3 50
Wood porch settee, 5 ft. slat, plain oak, Fig. 16.....	5 25
Institution couch, uphol. deep springs, plain oak, Fig. 17, each.....	10 25
Lounge, uphol. deep springs, plain oak, Fig. 18, each.....	15 00
Institution dresser, solid oak, mirror, 22x28, Fig. 19, each.....	15 00
Institution beds, single, ash or oak, 6 ft., Fig. 20, (filled only), each.....	4 25
Heavy dining table, square legs, plain oak, 3x6 ft., Fig. 21, each.....	10 00
Ward tables, solid oak, 31x46 in., Fig. 22.....	5 00
Institution dining tables, unfinished maple top, 3x12 ft., Fig. 23, each.....	12 00
Hair mattress, double bed, best quality hair, Fig. 24, each.....	22 00
Hair mattress, single bed, best quality hair, Fig. 25, each.....	15 00
Hair pillows, 3 lb. best quality hair, Fig. 26, each.....	4 00
Feather pillows, 3 lb., AAAA feathers, Fig. 27, each.....	3 50

No. 1390 fiber settee, Fig. 96, each.....	5 50

Apply to institution for catalogue showing "cuts" and full description.

It is deemed proper to call attention to the Act of 1905, and later amendments thereto, sections 9918 to 9926, Burns' R. S. 1914, which provides for the manufacture by the inmates of the Indiana Reformatory of such articles and supplies as are used by the State Institutions and the political divisions of the State, and requires counties, townships and other political divisions to purchase such articles. It is, however, provided in section 3 of the Act:

"That said reformatory shall not produce any school books and desks used by pupils for use, or which shall be used in the common schools of the state, or print any other books or blanks except for the use of said reformatory."

Section 5 as amended in 1911 provides:

"In no case shall bids be asked for or goods bought unless a written statement has been received from the superintendent of the Indiana Reformatory that the articles desired cannot be supplied by said reformatory when they are needed." (As amended, Acts 1911, page 519.) Section 6 provides:

"It shall be the duty of the board of managers from time to time, after taking effect of this act, to issue a printed descriptive catalogue to the various state institutions and political divisions of the state, showing in detail and by cuts such articles as the management is able to manufacture; and when such state institutions or political divisions of the state of Indiana are in need of such articles as described in said catalogue, the boards of control, boards of trustees, or boards of managers and the heads of such institutions, boards of county commissioners, township trustees, superintendents of poor asylums and county sheriffs shall make requisition on the managers of said reformatory for such articles as are needed, giving the board of managers a reasonable time to manufacture the articles so required, and shall not purchase any such articles elsewhere unless the same cannot be furnished by such reformatory. Said boards and above named officers shall not contract for or pay any bill for any such articles as are made at said reformatory which are shown in the catalogue to be issued as aforesaid, until a written statement has been given them that such institution cannot furnish such articles."

Section 8 provides:

"Any member of a county council, a county commissioner, township trustee, or any member of a board or other official of a state institution, or any other person who wilfully violates any of the provisions of this act

in sections 1, 2, 3, 4, 5, 6, 7, 8 and 9, shall be guilty of a misdemeanor, and upon conviction therefor shall be fined not less than one hundred dollars nor more than one thousand dollars, and in addition may be removed from office."

Section 9 provides:

"It shall be the duty of the several prosecuting attorneys of this state in their respective counties to diligently prosecute, by indictment or information, any and all violators of this act."

The act requires public officials of the state, to purchase all articles and supplies they may need from the reformatory if such articles or supplies can be furnished by the reformatory, and to pay the price therefor fixed by the board of classification. You are not required to advertise for bids on such articles as you purchase from the reformatory.

Note—Attention is hereby called to the Act of the General Assembly of 1915, Chapter 170, page 625, wherein it is provided that all political divisions of the State using supplies such as are produced under the supervision of the Board of Industrial Aid for the Blind, shall be required to purchase such articles in the same manner and under the same conditions as articles produced in the Indiana Reformatory are now required to be purchased by law.
